Connecting You to Your Future

Students and alumni of Cornell University’s College of Arts & Sciences enjoy a true depth and breadth of success after graduation.

After leaving Ithaca, graduates of Arts & Sciences continue on to impressive paths in diverse fields, becoming cancer researchers, foreign service officers, software developers, playwrights, journalists, doctors and even Supreme Court justices. The Arts & Sciences Career Development Center is here to assist current students and recent alumni at every stage of their early career engagement. Students of all years utilize our services, such as our resume and cover letter review, specialized advising, and thoughtful seminars. We encourage student growth and mindfulness through a variety of programs such as our Career Conversation series, through which we bring back vibrant alumni for intimate conversation with students, and Exploring Majors and Careers, a multi-part workshop for students to engage in their own self-discovery. Students leave Arts & Sciences with developed understandings of themselves, with 61% going directly into the workforce, 27% entering graduate programs, five percent seeking employment, and six percent preparing their graduate school applications or exploring the world.
